**Supplies are limited, and only those with symptoms will be tested!**

Covid-19 testing is recommended if you are experiencing **ANY OF THE FOLLOWING SYMPTOMS** such as

- Fever
- Fatigue
- Muscle Pain
- Abdominal Distress
- Cough
- Shortness of Breath
- Lack of Appetite

**If you do not have symptoms, you do not need a Covid-19 test.**

Testing without symptoms can lead to false negatives and false positives. For the accuracy of the testing and safety of everyone it is crucial that we limit the testing to those that have symptoms.

**More results are available within 24-48 hours after testing**

You will only be contacted if your test results are positive. If at any time you require a health assessment or treatment please follow up with your primary care provider. For emergent symptoms such as breathlessness or difficulty breathing, please go directly to emergency or call 911.

**YOUR COOPERATION WILL HELP OUR NATION FLATTEN THE CURVE OF COVID-19  
PLEASE FOLLOW ISOLATION ORDERS IF YOU HAVE BEEN TESTED POSITIVE.**
