BACKGROUND

Salish Seas Fisheries Limited Partnership (Salish Seas LP) is a wholly Indigenous owned entity. It represents a unique joint venture between Musqueam, Tla'amin and Tsleil-Waututh Nations. By working together on this innovative partnership, each community is able to benefit from this fishery model focusing on capacity building, Indigenous involvement, and environmental sustainability.

LICENCE REQUEST FOR PROPOSAL

This is a request (commonly referred to as a Request for Proposal (RFP)) that proposals be developed and submitted to Salish Seas LP based on set criteria. Salish Seas LP will consider entering into a lease agreement for the implementation of the most acceptable proposal which will be determined according to the evaluation criteria set out in this RFP. In addition, the acceptability of the lease agreement terms and conditions upon which the respondent would be prepared to undertake the implementation of the proposal will be measured against the lease agreement terms and conditions set forth in this RFP.

The Herring licences are the first RFP process. Salish Seas Fisheries also holds two communal prawn licences and a communal crab licence for which the RFP process will occur around March and May 2022 respectively.

ELIGIBILITY

Preference will be given first to registered members of the three partnering Nations. If there are no acceptable proposals, Salish Seas LP will consider an external RFP process.
